

## CERTIFICATE OF CONFORMITY

To Whom It May Concern:

This is to certify that the part numbers:

EXP SERIES: EXP-1, EXP-2, EXP-12, EXP-25

These are explosion resistant request to exit stations specifically designed for use in hazardous environments where flammable vapors and gases (Class I) and combustible dust (Class II) maybe present or handled. These exit stations were exclusively designed by Schneider Electric to meet Alarm Controls' unique Specifications. As such, Schneider Electric Industries SAS maintains all the certifications for this device in their UL files.

To find more detailed information about this exit station, please follow the link below:
